### **About our Speaker:**

Raymond Nelson is a psychotherapist, behavior scientist, trainer, and polygraph examiner who has conducted several thousand polygraph examinations. He has expertise in working with perpetrators and victims of sexual crimes and other abuse and violence. Mr. Nelson also has expertise in statistics and data analysis and is one of the developers of the OSS-3 scoring algorithm and the Empirical Scoring System. He is a researcher for Lafayette Instrument Company (LIC), a developer and manufacturer of polygraph and life-science technologies. Mr. Nelson is a past-President of the American Polygraph Association (APA), currently serving as an elected Director. Mr. Nelson teaches and lectures frequently throughout the United States and internationally, and has published numerous studies and papers on all aspects of the polygraph testing, including the psychological and physiological basis, test data analysis, faking/countermeasures, interviewing and question formation and test target selection. Mr. Nelson has been involved in policy development at the local, state, national and international levels in both polygraph and psychology, and has testified as an expert witness in court cases in municipal, district,

appellate, superior and supreme courts, as well as arbitration hearings, military courts, and administrative courts. Mr. Nelson is the academic director of the International Polygraph Training Center (IPTC) and teaches at a number of other accredited polygraph training programs. There are no proprietary or commercial interests and no conflicts of interest associated with this content. The views and opinions expressed herein are those of the author and not necessarily those of the APA, LIC or IPTC.
